LM. IRSAL SHYDIQ

SOFTWARE ENGINEER | AI & MOBILE DEVELOPMENT | WEB DEVELOPER

Bandung, Indonesia

ichalprov@gmail.com | +62 821-8727-0634 | github.com/irs622 | linkedin.com/in/irsalshydiq

PROFESSIONAL SUMMARY

Informatics Engineering student with hands-on experience developing AI-powered, Android, and web applications. Experienced in leading multidisciplinary software projects, building accessibility-focused solutions, and contributing to open-source and organizational systems. Passionate about Software Engineering, Artificial Intelligence, and Human-Centered Technology.

TECHNICAL SKILLS

- **Programming Languages:** Kotlin, Python, PHP, JavaScript, SQL.
- **Frameworks & Libraries:** React.js, Next.js, Laravel, Flutter, Android SDK
- **AI & Machine Learning:** Machine Learning , AI Integrations, Prompt Engineering, OpenAI API, Hugging Face.
- **DevOps, Cloud & Security:** Docker, CI/CD, Automated Testing (Jest, JUnit), Cybersecurity Basics.
- **Core Competencies:** Product Development, UI/UX Design, Figma, Project Management, Agile, Accessibility (a11y).

WORK EXPERIENCE

PT Inpartner Optima Integra *Jakarta, Indonesia*
Software Engineer / Web Developer Intern *Sep 2026 – Present*

- Develop and maintain web applications and contribute to ongoing software engineering tasks within the company's technology team.
- Contribute to website improvements including SEO, GEO, technical optimization, and AI-powered chatbot integration.
- Collaborate with internal and external developers to analyze existing systems, implement improvements, and maintain production applications.

Walhi Jawa Barat *Bandung, Indonesia*
Full Stack Web Developer Intern *2026*

- Architected the organization's website infrastructure using **Laravel** and **MySQL** and resolved deployment issues on **Linux VPS**.
- Spearheaded a complete UI/UX redesign and implemented system reliability solutions via **Docker**.

PC Fatayat NU Kabupaten Sukabumi *hybrid, Sukabumi Indonesia*
Project Manager & UI/UX Designer *2026*

- Led the technical development of a centralized organizational website utilizing **React.js** and **Laravel**, focusing on scalable Full-Stack architecture.
- Engineered secure data pipelines by integrating **RESTful APIs** and **SQL databases** to support organizational workflows.

Freelance Software Engineer *Remote*
Web & Mobile Developer *2024 – Present*

- Developed and deployed custom web and mobile applications, managing the full software development lifecycle for various clients.
- Delivered responsive solutions, managed hosting configurations, and performed ongoing system maintenance.

PROJECTS

DengarBain – Accessible Hadith Learning Web App (PWA) *2026*
Web Developer & UI/UX Designer

- Developed an accessibility-focused **Progressive Web App (PWA)** for learning Hadith Arba'in, designed primarily for visually impaired users.
- Implemented responsive web interfaces, accessible navigation, audio-based learning interactions, and Progressive Web App capabilities.

Hadith Arba'in Mobile App *2026 – Present*
Product Lead & Developer

- Developed an Android application integrating Text-to-Speech and accessible navigation to support independent Hadith learning for visually impaired users.
- Defined product requirements and designed an audio-first user experience with accessibility-centered interaction flows.

Fatayat NU Sukabumi Management System *2026*
Project Manager & System Designer

- Led project planning and coordinated stakeholders to develop a centralized membership management system for 47 district branches.
- Designed the system architecture, database schema, and business workflows to improve administrative efficiency and data consistency.

AR Hijaiyah – Voice-Based Learning Application *May 2026 – Jun 2026*
Full Stack Developer & UI/UX Designer

- Built an application combining AR, Three.js, and voice guidance to create an accessible Hijaiyah learning experience.
- Designed responsive UI/UX and implemented interactive 3D learning modules for visually impaired users.
- Produced research from the project that was accepted for publication in *Artificial: Jurnal Informatika dan Sistem Informasi* (2026).

BAHARA – Voice-Guided Arabic Learning App *2025*
Product Lead & Developer

- Defined product requirements and led the development of an accessible Arabic learning application for visually impaired users.
- Built voice-guided interactions with touch-based navigation and audio feedback based on Human–Computer Interaction (HCI) principles.

Kamus Cerdas Indo-Sunda Mobile Application *2025*
Backend Developer & DevOps Engineer

- Built backend services, RESTful APIs, and database integration to support core mobile application functionality.
- Designed and maintained CI/CD pipelines, production infrastructure, and automated Google Play Store deployment for stable releases.

Library of Focus *2025*
Game Developer

- Built an interactive maze-based mobile game in React Native that was showcased at the Cognitive Exhibition, Faculty of Psychology, UIN Sunan Gunung Djati Bandung.
- Designed and implemented multi-level gameplay, collision mechanics, and responsive interfaces to deliver a cognitive training experience.
- Completed the project independently within one month and deployed it for use by exhibition visitors.

EDUCATION

UIN Sunan Gunung Djati Bandung *Bandung, Indonesia*
Bachelor of Informatics Engineering (GPA: 3.30 / 4.00) *Expected 2027*

- **Awards:** Awarded LPDP Scholarship for academic excellence (Ministry of Religious Affairs Indonesia).
- **Relevant Coursework:** Software Engineering, Database Systems, Computer Networks, Human-Computer Interaction, Information Security.

LEADERSHIP & ACTIVITIES

CSSMoRA Nasional & UIN Sunan Gunung Djati *2025 – Present*
Head of Strategy, Branding, & Communication

- Directed digital communication strategies and managed digital infrastructure for a national student scholarship network.

Informatics Engineering Student Association *2025 – 2026*
Head of Strategic Studies & Advocacy Division

- Led data-driven advocacy initiatives and managed technical study groups to strengthen student technical competencies.

CERTIFICATIONS

- **Artificial Intelligence & GenAI:** Anthropic Claude Code in Action (2026), IBM SkillsBuild AI Foundation (2026), Komdigi Dasar Keamanan AI (2026).
- **Software & Infrastructure:** Google Analytics GA4 (2026), Cisco CCNA & Linux Essentials (2025), Oracle Database SQL (2025).
